

# Supporting Achievement in U.S. History

## FROM REGION 4

This series contains resources for teachers to use as they prepare students for the U.S. History End of Course (EOC) exam based on TEA's Assessed Curriculum and Blueprint documents. The series includes two volumes that span the country's history.

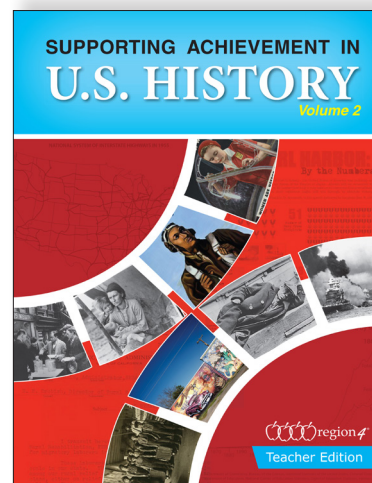

### Volume 1

#### The Founding Era through the Roaring Twenties

### Volume 2

#### The Great Depression to the Beginning of the 21st Century

Each volume contains a spiral-bound teacher manual and student materials that include various resources organized into eight units that reflect the eras required by the social studies TEKS. This resource can be used before, during, and after original instruction.

Student materials are available as digital content through the online repository, R4Hub.esc4.net, and can be accessed through a user license set up at the time of purchase. Files can be projected or printed for classroom use.
