Director of Reading/Language Arts and Social Studies
Solutions

TEKS Review

In June 2017, the SBOE approved a new process to be used for the review and revision of the Texas Essential Knowledge and Skills (TEKS). The new TEKS review process calls for up to five separate work group meetings and provides multiple opportunities for the public to give feedback on the recommendations of the work groups. The SBOE also approved updates to the TEKS review and instructional materials adoption schedules at the June 2017 meeting.
