  - Farther along with U.S. History, will have some more information after field test this spring

  - Number of items proportional to TEKS per strands in the course
  - Six objectives instead of five are proposed
- If students fail EOC will they receive credit for the course?
  - Law says 15% of students' average grade will be the EOC score

Questions from the field:

- Do ESC staff members have access to the free database mentioned at the beginning of today's TETN?

  - Amount of use is tracked
  - \$2.5 million designated for this resource; "use or lose"
- TALA:
  - Stipend paid to those attending state training, whether or not they are required to attend
  - Districts who offer the training outside the state funded trainings may offer stipends or not as they choose; the state will not fund those stipends
  - Priority in registration will be given to Academically Unacceptable schools
  - TALA Web site has contacts for each region:  
<http://www.tea.state.tx.us/tala/>
- TAKS Released Tests: Will this year's test be released or will tests be released on a three-year cycle?
  - No final decision has been made yet on the released test cycle for TAKS
  - SB1031 talks about EOCs using three year release cycle and going toward that with assessments in general; we are waiting for official word on whether that applies to TAKS at this time
