

Welcome to the HP Institute

How HP is working with education to
develop tomorrow's IT workforce today

Business need for speed

The rate of business is increasing exponentially

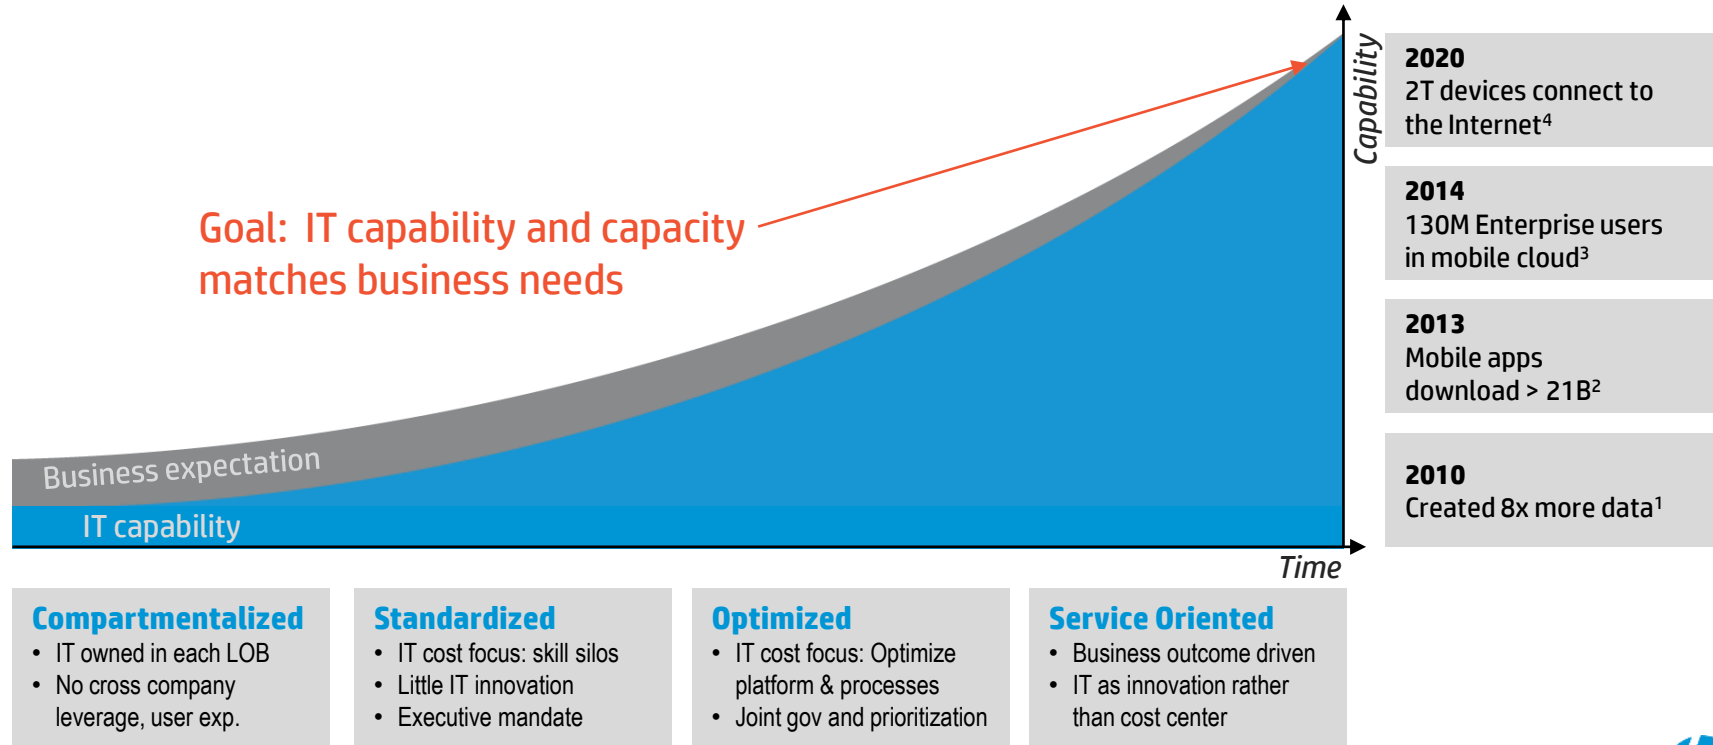

IT expectation gap

Businesses struggle to translate promise of new technologies into clear IT strategies

IT and business must evolve together to close the gap

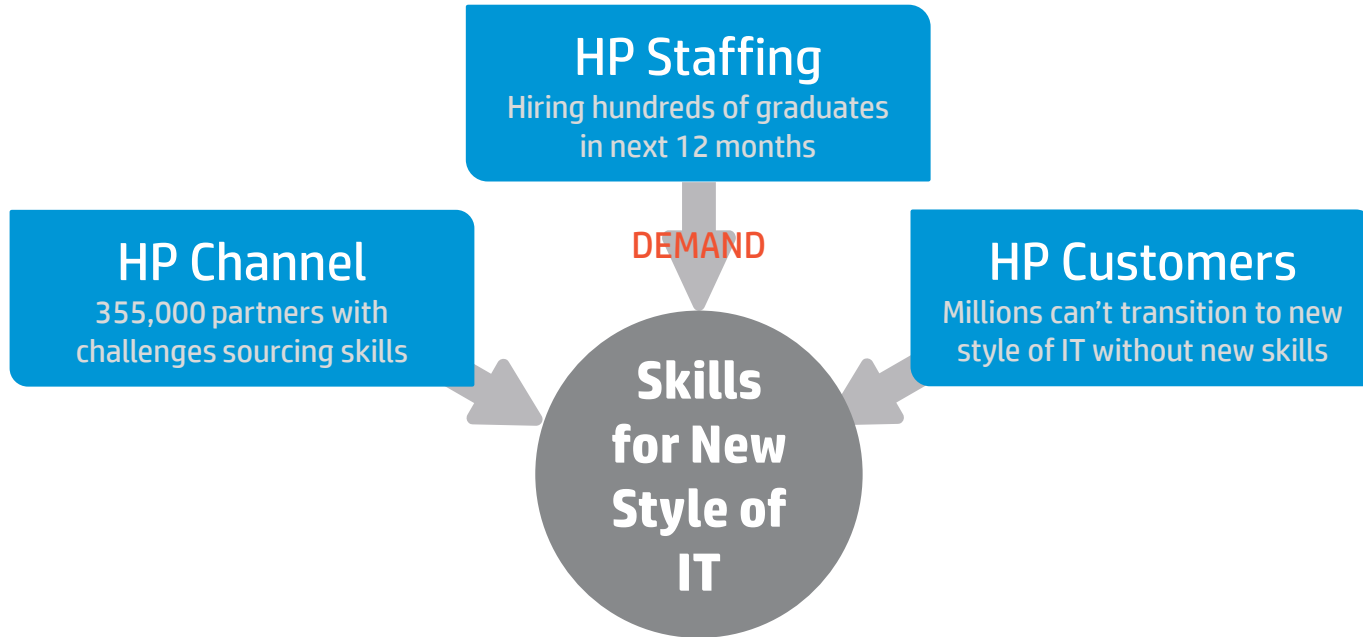

The path to realizing the promise of convergence, cloud, big data and any new technology

Market Need for Skills for the New Style of IT

“How do you keep up with this next generation of IT? And how do you bring people into the company for whom it isn't something they have to learn, it is what they already know?”

- Meg Whitman, HP Security Analysts Meeting, October 2013

New skills required by Business & IT pros

21st century skills require both business context and practical tech experience

Skill Area	Technology Professional	Business Professional
 Business Skills	Business context awareness - Translate business objectives into technology strategies	Systems thinking and innovation - Grasp the “big picture” and create solutions to achieve business goals
 Technology Skills	End-to-end solution expertise - Develop integrated cross-platform solutions	Technology acumen - Identify and leverage technologies to achieve business outcomes
 Practical Experience	Hands-on experience - Designing and configuring technologies that create business differentiation	Managing tech initiatives - Keep IT initiatives on track, ensure they deliver on business objectives

HP Institute objective is employability

HP Institute is a partnership with academic institutions to infuse practical skills and business context into education. Benefits:

Students/professionals

- Gain practical experience and industry-recognized certification right in the classroom which helps get a job

Educators

- Access to industry tools, curriculum and resources helps develop business context and practical skills that differentiates educators

Academic institutions

- Provide students with employable skills differentiates schools and helps them place students in careers

Business and industry (HP customers and partners)

- Continuous access to talent with precisely the skills they need
